

Twin Rivers Paddle Club
Minutes
February 9, 2010

The meeting was called to order by Bill Sadler at 7:00 February 9, 2010.

Guests and new members were welcomed by Bill.

Program: A slide show presented by Cal Hanson on building a strip kayak from a "Red Fish" kit. The slide show included the assembling of the boat, from sanding, coating it with epoxy, glassing and finishing with the 5 coats of varnish. Cal explained that you work from the inside out and you build the deck last. His best advice if you want to build your own kayak is you must have patience and a lot of clamps.

Officers Report:

President: none
